

Teachings to Awaken Your Personal Power

Empowering Your Medical Intuition: Seeing with an X-Ray Eye

We are much more than a physical body and a thinking mind. We are electrically charged vibrational beings made up of energy centers and energy grids -- a virtual hologram of aliveness.

Learn one of the newest tools in complimentary health care. See what sophisticated diagnostic exams cannot determine. Expand your psychic abilities to identify the core struggles leading to illness. Discover the mental and emotional components that affect the human body and detect disturbances even before they manifest as an illness.

This two-day workshop will span the scope of this complimentary health care skill. Lay people without a medical background as well as medical practitioners, energy healers, practicing psychics and mediums will empower their perceptive skills in assessment and promote health at the core level of one's being. This is an experiential program **without any performance anxiety**. It includes presentations with a balance of hands on practice and includes 12 handouts.

Learn how to:

- Develop inner sight for the deeper cause of illness.
- Feel, sense and see the entire person on all levels.
- Perceive the aura by scanning.
- Understand the electromagnetic energy of thought and emotion.
- Assess what vibrational colors are telling you.

It is important to me to make sure you KNOW that this workshop is set up to avoid performance anxiety and you will not be called out to stand before others at any time." -- Tina

"This class is very informative, interesting and also fun... Tina is an excellent teacher. No pressure is put on the student to 'perform'. There are many practice sessions. I recommend this class to all who are interested in energy work."

"I was very impressed with the medical intuition workshop. Step by step instructions... she included hands on projects. Many hand outs and the security to not reveal any part of you that you did not want to."

--Lorri Medaugh
